**Re: Shenandoah Sanitation Transfer Station  
Renewal - Permit #73-SDP-04-18P-XFR**

Dear Mr. Love

Enclosed is the renewed transfer station permit for the above-referenced facility. The permit is authorized from April 10, 2023 to April 10, 2026. The permit certificate must be posted at the facility and the permit provisions and approved engineering plans and specifications kept on file at the facility.

Please note that the permit contains special provisions that may require a response or action by you, which if not properly complied with, may prompt enforcement action by the DNR. Please review the permit and the requirements of 567 IAC 106 with your operator(s), as he/she must be familiar with them.

Thank you for your efforts to comply with Iowa's environmental regulations. Should you have any questions, please contact me at (515) 201-8272 or [Chad.Stobbe@dnr.iowa.gov](mailto:Chad.Stobbe@dnr.iowa.gov).

Sincerely,

A handwritten signature in blue ink, appearing to read 'Chad A. Stobbe', is written over a red circular stamp.

## IX. General Provisions

The above-named permitted agency is hereby authorized to operate a solid waste transfer station (XFR) at the described location in conformance with Iowa Code section 455B, the rules pursuant thereto existing at the time of issuance, and any subsequent new rules which may be duly adopted, and any provisions contained in Section X of this permit.

The project shall be constructed and operated according to the engineering plans and specifications, the site operation plan approved by the Department of Natural Resources (DNR), and these shall become a part of this permit. Updated plans shall be submitted at the time of each permit renewal application and included with any request for permit modification or significant change in facility operation.

No legal or financial responsibility arising from the construction or operation of the approved project shall attach to the State of Iowa or the DNR due to the issuance of this permit. If title to this project is transferred, the new owner must apply to the DNR for a transfer of this permit within thirty (30) days of the date of title transfer. This permit is void sixty (60) days after the date of title transfer unless the DNR has transferred the permit.

The permit holder is required to maintain records for the service area of tonnages accepted at this facility in accordance with 567 Iowa Administrative Code (IAC) 106.13(455B,455D) and 567 IAC 106.14(455B,455D). Records shall be developed and maintained in such a way that tonnages from each county/state may be tracked in order to provide the local solid waste agency and the DNR with accurate statistics from which generation and diversion rates will be derived. The reports are due on a quarterly basis and shall be submitted to the DNR using Form #542-8025. The reports will be due January 1<sup>st</sup>, April 1<sup>st</sup>, July 1<sup>st</sup> and October 1<sup>st</sup> for the quarters ending September 30<sup>th</sup>, December 31<sup>st</sup>, March 31<sup>st</sup> and June 30<sup>th</sup>, respectively. The permit holder shall mail the completed form to the Iowa Department of Natural Resources; Land Quality Bureau; Wallace State Office Building; 502 East Ninth Street; Des Moines; Iowa 50319-0034. This reporting procedure supersedes any previous conflicting permit provisions.

A site inspection and report shall be completed annually by an Iowa-licensed professional engineer in accordance with 567 IAC 106.14(2). The inspection shall, at a minimum, cover the design standards pursuant to 567 IAC 106.10(455B) and shall reflect the facility's compliance with respect to the DNR-approved design and construction. The annual report shall be submitted to the Iowa Department of Natural Resources; Land Quality Bureau; Wallace State Office Building; 502 East Ninth Street; Des Moines; Iowa 50319-0034 by December 21<sup>st</sup> each year.

The permit holder shall provide continuous financial assurance coverage for site closure in accordance with 567 IAC 106.18(455B). The permit holder shall submit proof of compliance, including an updated closure cost estimate and proof of coverage with each permit renewal, until released from this requirement by the DNR.

The permit holder shall use a scale certified by the Iowa Department of Agriculture and Land Stewardship (IDALS) for the purposes of weighing and reporting solid wastes accepted at the transfer station. If conditions are such that make it impractical to provide an on-site scale, then off-site scale facilities or an alternative method to weighing may be used if approved by the DNR. The permit holder shall comply with the waste weighing, record keeping and tonnage fee reporting requirements defined in 567 IAC 101.14(445B,455D).

Solid waste accepted at this site shall not exhibit free liquids, toxic or hazardous properties. No hazardous wastes as defined by Iowa Code section 455B.411 may be accepted at this facility.

Failure to comply with Iowa Code section 455B, or any rule of order promulgated pursuant thereto, or any or all provisions of this permit may result in: 1) a civil penalty of up to \$5,000 for each day of violation, pursuant to Iowa Code section 455B.307, or 2) the suspension or revocation of this permit, pursuant to Iowa Code section 455B.305.

The issuance of this permit in no way relieves the applicant of the responsibility for complying with all other local, state, and federal statutes, ordinances, and rules or other requirements applicable to the establishment and operation of this solid waste transfer station.

X. Special Provisions

1. The permit holder is authorized to accept up to 6,500 tons of municipal solid waste annually in accordance with the approved Page County Landfill Association's updated Solid Waste Comprehensive Plan (Plan). The Plan as approved by the DNR on April 30, 2019, any approved amendments to the Plan, and the latest Plan update are hereby incorporated as permit documents.

The permitted service area is described as: All cities and the unincorporated area in Page County.

Collected waste shall be disposed of at the Page County Sanitary Landfill (#73-SDP-01-75P) located near Clarinda, IA. The permit holder is not authorized to transfer solid waste to any other sanitary disposal project in Iowa without first receiving prior written approval from the DNR.

2. No provision in this permit or the updated and approved site operation plan, emergency response and remedial action plan, and closure plan, as described in the permit application dated January 9, 2023 (Doc #105451), constitutes a waiver from 567 IAC Chapter 106 or the Code of Iowa. Any conflict between a provision of the permit or referenced documents and Iowa rules or statutes shall be resolved in favor of the duly adopted rules and statutes.
