JASON WEILAND APPLIANCE RECYCLING OF IOWA 1801 EAST EUCLID AVENUE DES MOINES, IA 50313

RE: Appliance Demanufacturing Inspection

Alter Metal Recycling, 1801 Hull Avenue, Des Moines, IA (Polk County)

Sanitary Disposal Project Permit # 77-ADP-01-02

Dear Mr. Weiland:

Enclosed is the report completed by Malia Schepers of the Field Office #5 staff following the inspection of your facility in Des Moines.

The report should be self-explanatory. Please take note of the requirements, reminders, and recommendations listed near the end.

You may contact Ms. Schepers (515-250-1097; malia.schepers@dnr.iowa.gov) or this office with any questions or comments. Thank you for your assistance during this inspection.

Sincerely,

Digitally signed by Bill Gross Date: 2023.03.02 10:15:12

Bill Gross

Environmental Specialist Senior, Field Office #5

515-238-7871

c: Sue Johnson, Iowa DNR Land Quality Bureau (w/encl., via email)

## IOWA DEPARTMENT OF NATURAL RESOURCES APPLIANCE DEMANUFACTURING (ADP) PERMIT INSPECTION FORM

County: Polk
Facility Address:
Alter Metal Recycling
1801 Hull Avenue
Des Moines, IA 50313
Mailing Address:
1801 East Euclid Avenue
Des Moines, IA 50313
reside to a section of the contract of the con
Date of Last Inspection: 7-17-2018

<sup>\*</sup>Be advised your facility may require, due to either SIC code or onsite management practices, an NPDES General Permit #1 (Stormwater permit).

	IAC 567 CI	napter 118.4: Appliance Storage & Handling Prior to Demanufacturing	Yes	No	NA
Handling	118.4(1)	Are appliances being stored to prevent capacitors, refrigerant lines, compressors, and components containing mercury from being damaged and allowing a release into the environment?			
Storage & H	118.4(2)	Are appliances being handled in a way which prevents damage, cuts, or breaks in refrigerant lines, compressors, capacitors and components containing mercury from being damaged and allowing a release into the environment?	$\boxtimes$		
St	118.4(3)	Are less than 1,000 appliances being stored prior to demanufacturing?	$\boxtimes$		
561	118.4(4)	Are appliances being demanufactured in 270 days or less?	$\boxtimes$		

**Comments:** Appliances that had not been demanufactured included air conditioning units stored indoors, orderly, and upright. Appliances are generally demanufactured in one to two days from arrival.

u)		hapter 118.7: Fixed Facility & Mobile Operations	Yes	No	NA
perations	118.7(1)	Is demanufacturing taking place on an impervious floor (including but not limited to concrete, ceramic tile, or metal)?	$\boxtimes$		
Opera	118.7(2)	Is the point of demanufacturing located 50 feet or more from a well and any water of the state?	$\boxtimes$		
	118.7(5)	Is a unique marking system (minimum of nine inches square) being applied to the appliances after demanufacturing?	$\boxtimes$		

**Comments:** No demanufactured appliances were observed.

		hapter 118.8: Training	Yes	No	NA
	ত	Is at least one owner or employee completed a Department-approved training course?	$\boxtimes$		
ŕ	118.8	Is one trained person on site at all times when appliances are being demanufactured?	$\boxtimes$		

Comments: Alter has two certified employees with one on site while appliances are being demanufactured.

	IAC 567 C	napter 118.6: Permit Application Requirements	Yes	No	NA
	118.6(8)	Is a copy of the EPA Refrigerant Recovery or Recycling Devise Acquisition Certification available onsite?	$\boxtimes$		
	608 CAA (CFR)	Is a copy of the EPA Refrigerant Reclaimer's Certification available onsite if reclamation (purification) is taking place at the facility?			$\boxtimes$
ecovery	IAC 567 CH	napter 118.9: Refrigerant Removal Requirements	Yes	No	NA
2	118.9(2)	If refrigerant is removed at a location other than a permitted ADP facility, is there documentation that it was removed by a service or repair facility certified for the removal of refrigerant?	$\boxtimes$		
Refrigerant	118.9(3)	Is removal of refrigerant being done in an area where the temperature of the surrounding air and that of the appliance being demanufactured is 45 degrees Fahrenheit or greater?		$\boxtimes$	
æ	IAC 567 CH	napter 118.13: Record Keeping & Reporting	Yes	No	NA
	118.13(2)"a" & 118.13(2)"g"	Are the number and type of refrigerant containing appliances being tracked, as well as the amount of refrigerant removed?	$\boxtimes$		
	118.13(3)" <i>a</i> "	Are bills of lading being kept as to where refrigerants are being shipped for disposal?			

**Comments:** Alter receives appliances from various heating and cooling companies in the area, along with individuals and permitted demanufacturers. Units from heating and cooling companies most generally have the refrigerant removed prior to drop off. Appliances that are received from permitted demanufacturers, and are correctly marked as demanufactured, are not verified to be demanufactured and are sent to the shredder. Recovered refrigerant is sent to Heating and Cooling Supply Company in Des Moines.

Air conditioners stored indoors were waiting to have the refrigerant removed when temperatures are greater than 45 degrees Fahrenheit. However, there were not any refrigerators waiting to be demanufactured. We discussed the need that that temperatures need to be greater than 45 degrees Fahrenheit to remove all refrigerant. Mr. Weiland stated they would work on making a heated area to safely remove refrigerants.

	IAC 567 CH	napter 118.9: Refrigerant Removal Requirements	Yes	No	NA
lio	118.9(5)	If compressor oil is being removed from the refrigeration units, is it being stored in accordance with 567-119.5 (Note: AST must be large enough and on an impermeable surface to prevent spills, meet API construction standards, have absorbent material available, have a gauge to monitor liquid level, & meet Ch. 567-135 &136 if UST)			$\boxtimes$

	IAC 567 C	hapter 118.9: Refrigerant Removal Requirements	Yes	No	NA
	118.9(6)" <i>a</i> "	Is the ammonia gas being vented into water and is the resulting wastewater being properly disposed of?			$\boxtimes$
Refrigerant	118.9(6)"e"	Is sodium chromate being properly stored in DOT-approved containers labeled with a proper EPA-approved chromium label stating "chromium" or "hazardous waste"?			$\boxtimes$
Refri	118.9(6)"g"	Does the facility have an EPA ID number (RCRA)?	$\boxtimes$		
Gas	118.9(6)" <i>h</i> " & 118.9(6)" <i>i</i> "	Is asbestos insulation being removed and handled properly?			
onia	IAC 567 C	hapter 118.13: Record Keeping & Reporting	Yes	No	NA
Ammonia	118.13(2)"a"(	Are records being kept on the number of sodium chromate–containing appliances being demanufactured			$\boxtimes$
	118.13(2)" <i>f</i> "	Are records being kept on the number of sodium chromate–containing appliances shipped to another demanufacturer			$\boxtimes$
	118.13(3)"a" 118.13(3)"b'				$\boxtimes$

Comments: Alter does not accept appliances containing sodium chromate.

IAC 567 (	Chapter 118.10: Mercury-Containing Component Removal & Disposal	Yes	No	NA
118.10(1)	Are all components containing mercury being removed?	$\boxtimes$		
118.10(2)	Are mercury components being stored in containers with a proper EPA- approved label stating "Universal Waste-Mercury Containing Equipment", or Waste Mercury-Containing Equipment" in both English and the predominant language of any non-English-reading workers?			
118.10(3)	Is the date when the first mercury-containing component was placed in the container affixed to the container?			
118.10(4)	Storage of mercury is limited to one year, after which, it must be transported to an EPA-approved recycler/recovery facility. Has storage been under one year?			
118.10(8)	Are fluorescent tubes, lamps, bulbs, etc., being placed in a container and packaged to prevent breakage to an EPA-approved recycler?			
IAC 567 (	Chapter 118.13: Record Keeping & Reporting	Yes	No	NA
118.13(2)	Are records being kept on the number of mercury-containing appliances being demanufactured, number of mercury switches removed, number of fluorescent tubes removed, as well as the number of mercury thermocouples being removed?	$\boxtimes$		
118.13(3)	Are records or bills of ladings being kept on the shipment of mercury-containing components?	$\boxtimes$		

**Comments:** Mercury components are picked up by Atec Recycling. Mercury components were being stored in a plastic bag with the date the first component was placed and with correct labeling.

	IAC 567 Ch	apter 118.11: Capacitor Removal Requirements	Yes	No	NA
	118.11(4)" <i>a</i> "	Does the facility have an EPA TSCA ID number for capacitor storage (required if facility has no RCRA ID #)?	$\boxtimes$		
	118.11(4)" <i>b</i> "	Are PCB items being stored in a manner that provides adequate protection from the elements and adequate secondary containment? (Note: Storage must take place on an impervious material above the 100-year floodwater elevation)	$\boxtimes$		
s	118.11(4)"c"	Is the point of demanufacturing located above the 100-year flood water elevation?			
Capacitors	118.11(4)" <i>d</i> "	Are PCB storage containers filled to two inches of absorbent material in the bottom?		$\boxtimes$	
Capa	118.11(4)"e"	Are PCB containers DOT-approved and labeled with a 6" by 6" yellow label stating "PCBs" as described in CFR part 761.45?	$\boxtimes$		
PCB (	118.11(4)" <i>g</i> "	Is the storage for non-leaking small PCB capacitors that do not comply with the requirements in 118.11(4) "a" to "f" stored for less than 30 days from the date of removal and a notation places on the PCB capacitor indicating the date the item was removed from the appliance?	$\boxtimes$		
	118.11(4)"f" & 118.11(4)"h"	Is the date when the first capacitor was placed in the storage container on the label? Storage of capacitors is limited to 270 days, after which they must be transported to an EPA-approved landfill or incinerator. This burial or incineration must be documented (within one year of the date on the container) and this record kept by the demanufacturer for three years from the date the PCB waste was accepted by the initial transporter.	$\boxtimes$		

Capacitors	IAC 567 Ch	apter 118.13: Record Keeping & Reporting	Yes	No	NA
	118.13(2)	Are records being kept on the number of PCB containing appliances being demanufactured, number of PCB capacitors and ballasts as well as the date the first PCB-containing item was placed in the storage drum that is in use on December 31? number of mercury thermocouples being removed?	$\boxtimes$		
CB	118.13(3)" <i>a</i> " & 118.13(3)" <i>b</i> "	Are records being kept on the shipment of PCB components and the documentation of destruction or receipt from a regional collection center for all PCB materials shipped?	$\boxtimes$		
<b>A</b>	118.13(3)" <i>d</i> "	Are records being kept documenting inspections of the PCB storage area as required by 118.11(4)"h"?			

**Comments:** PCBs are picked up by Atec Recycling and the last destruction record was June 28, 2022. Records documenting PCB storage area inspections were not reviewed at this time. Storage buckets were labeled and dated correctly, however there was no absorbent in the buckets.

	IAC 567 C	hapter 118.12: Spills	Yes	No	NA
Spills	118.12(1)	Are spill records being kept and has the facility reported spills that resulted in a hazardous condition?			
	118.12(2)	Is a mercury spill kit on hand?	$\boxtimes$		

**Comments:** Alter reported no spills have occurred in the demanufacturing area. A mercury spill kit was available and onsite.

Reporting	IAC 567 C	hapter 118.13. Record Keeping & Reporting	Yes	No	NA
	118.13(2)	Are records being kept on appliances demanufactured in separate categories, as well as the number of each component, amount of refrigerant, etc?	$\boxtimes$		
	118.13(3)	Are records being kept on all hazardous waste manifest and bills of lading for shipments of refrigerant, mercury switches, PCB-containing material, and kept on site for a minimum of three years?	$\boxtimes$		
	118.13(3)" <i>f</i> "	Are copies of annual reports (containing all the record keeping requirements) that have been sent to the Department Central Office being retained for at least three years?	$\boxtimes$		

**Comments:** A copy of the last annual report was reviewed during this visit. Records of mercury and refrigerant shipments were sent to me by email the same day.

Processing	IAC 567 Chapter 118.15: Shredding of Appliances			No	NA
	118.15(1)	Has fluff from shredding been tested at least quarterly for PCBs, and TCLP for heavy metals? Have these results being sent to the department within 30 days of the end of each quarter?			
	118.15(1)	Have the results from fluff testing been submitted to the department within 30 days of the end of each quarter? And are these records being kept on site for a minimum of three years?			
	118.15(3)	Are appliances being demanufactured before shredding or processing?	$\boxtimes$		
	118.15(3)	If appliances are being accepted from demanufacturers for recycle/disposal, have the appliances been demanufactured in accordance with Federal regulations and state laws from which the appliances were received?	$\boxtimes$		

**Comments:** All fluff generated from this facility is sent by truck to Alter's facility in Council Bluffs. Testing is conducted in Council Bluffs and quarterly reports are sent to IDNR's central office.

## **Summary of Requirements:**

Add at least two inches of absorbent to PCB buckets prior to storing components.

## **Summary of Reminders:**

- 1) Your ADP permit expires 7-23-2023.
- 2) Remove refrigerant when temperatures are greater than 45F.
- 3) This facility's financial assurance allows for up to 200 appliances on site prior to demanufacturing.
- 4) Have three years of records on site and available for a state or federal inspector.

## **Summary of Recommendations**

Use a bucket to store used mercury components.
