Good afternoon Mike-

In email correspondence dated June 19, 2023 (Doc #107005), SCS Engineers supplied a schedule for cap repair activities at the Henry County Sanitary Landfill. Repairs were completed late summer/early fall of 2023.

The cedar trees identified in the 1st bullet of the June 19 correspondence were cut and treated and the bare areas seeded.

The seeps and erosion area identified in the 2nd, 3rd, and 4th bullets were repaired by placing geotextile and erosion stone over the seeps.

If you have any questions regarding the cap repair activities, please contact me at the number below.

Nathan Ohrt
