Below is a response to Doc #109009. The DNR comment letter that will be sent will address both the 2023 AWQR and their response. Can this please be entered into the database?

Geoff -

I received the message that the meeting is cancelled today.

I do see that I need to change the GWPS for cobalt to 2.1 ug/L moving forward.

Thank you for your review of the 2023 AWQR.

Sincerely,  
Todd
