Subject: Sac County Landfill Methane

To: Smith, Mike <mike.smith@dnr.iowa.gov>

Mike,

Following up on the phone conversation we had this morning regarding the Sac County Landfill (81-SDP-01-75C). During Q2 methane monitoring the methane concentration in monitoring point GP-3 (northeastern property boundary manhole) was measured at 100% LEL. Our discussion concluded that there's no immediate threat and Q3 monitoring will continue as normal. If there is an exceedance measured in Q3 I will contact you again.

Thanks,

Sean A. Marczewski
