2024 Leachate Report
Neal South Energy Center Coal Combustion Residue Monofill
Salix, Iowa
Permit No. 97-SDP-13-98

Dear Mr. Spain:

On behalf of MidAmerican Energy Company (MidAmerican), GHD has prepared this Leachate Report to document leachate management activities for the Neal South Energy Center Coal Combustion Residue (CCR) Monofill (Neal South Monofill).

During calendar year 2024, no leachate was recovered from the Neal South Monofill; leachate levels were monitored by MidAmerican personnel on a quarterly basis during 2024, but no recoverable leachate was observed. No leachate samples were collected at Neal South during 2024. If leachate is recovered in the future, MidAmerican intends to transport the leachate to the Leachate Pond at the Neal North Energy Center.

If you have any questions, please contact Josh Love of MidAmerican at 712-277-6367 or Michael Alowitz at 515-414-3934.

Sincerely,

A handwritten signature in black ink that reads "Michael Alowitz". The signature is fluid and cursive, with the first and last names being the most prominent.

Michael J. Alowitz, P.E.
Senior Engineer
