Subject: 2025 Financial Assurance
Faircast, Inc. (formerly Fairfield Castings LLC)
Permit # 51-SDP-06-19C

Dear Mr. Stobbe,

SCS Engineers (SCS), on behalf of Faircast, Inc Foundry Sand Disposal Site (Site), is submitting herewith the 2025 Financial Assurance to the Iowa Department of Natural Resources (DNR) for the above-referenced facilities.

In order to incorporate the inflation factor and reduction of post-closure years, the 2024 post-closure cost estimate was divided by 2024's remaining years in post-closure to determine the annual cost. The inflation factor was applied to this cost to determine the annual cost for the 2025 estimate. The 2025 annual cost estimate was multiplied by 2025's remaining years in post-closure to determine the total post-closure cost estimate for 2025. The values for the previous and current estimates are provided in the table below. The Faircast, Inc. site currently has 25 years remaining of the 30-year stated post-closure period.

Estimate	2024	Inflation Factor	2025
Total Cost	\$548,964		\$540,525
Units	26		25
Annual Cost	\$21,114	1.024	\$21,621

Bond No. 285057892 dated November 20, 2020 and last updated April 22, 2022, currently at \$583,700, covers the remaining total cost provided in the table above.

Mr. Chad Stobbe
