RE: Permit Revision Request

Dear Mr. Spain,

The Boone County Sanitary Landfill, IDNR Permit # 08-SDP-01-75P, is requesting an SDP Permit Revision for approval for use of an alternative daily cover (ADC) tarp system. The Landfill is planning to use a Tarp Armor TDS30XS system with two spools each with two 30' by 107' tarps, a system which has been approved for use at other landfills in Iowa. Boone County Landfill staff would like to begin using the tarp system as ADC once equipment is received.

Thank you for your consideration of this request.

Sincerely,

A handwritten signature in blue ink that reads "John Roosa".

John Roosa
Administrator, Boone County Landfill
