Geoff,

An on site meeting was held at the Ida County SLF with IDNR and HLW personnel on March 28, 2025 to discuss the Environmental Covenant process for the facility. As discussed at that meeting, IDNR is going to provide a meeting summary documenting the observations and issues discussed during the site visit. HLW's intention was to provide our Spring Semi-Annual Engineer's Inspection Report after the IDNR summary had been received and reviewed.

The IDNR summary has not been received to date. With this email we are requesting an extension to the submission deadline for the 2025 Spring Semi-Annual Engineer's Inspection Report for the Ida County SLF (IDNR Permit No. 47-SDP-01-76C) to May 30, 2025. We will certainly strive to make the submission prior to that date if possible.

Thank you for your consideration of this request. Please let me know if you have any questions,

Doug
