Re: *Renewed Special Waste Authorization # 63-SWA-42-13*

The following special waste authorization (SWA) applies ONLY to the waste generator addressed above. This authorization allows the waste generator to dispose of the special waste referenced in accordance with the instructions, conditions and limitations contained in this SWA. A copy of this SWA must accompany the hauler to the landfill. The waste generator shall notify the department and landfill, prior to disposal, of any change in the characteristics of the special waste being disposed.

The issuance of an SWA does not obligate any waste disposal facility to accept the waste nor does it preclude the facility from imposing restrictions other than those listed in the SWA. The landfill has the final decision whether to accept the special waste. The issuance of an SWA does not exempt the waste generator from any local, state or federal laws or regulations. The department may revoke an SWA for cause at any time.

WASTE & VOLUME: Quarterly disposal of approximately 30,000 pounds of Seed Corn, , Seed Treatment Chunks, and Seed Treatment Dust, with approximately 12,000 pounds for immediate disposal. **Updated testing will be required prior to next approval and must include TCLP metals, TCLP pesticides and TCLP herbicides.**

GENERATOR: Bayer IA Foundation - Grinnell
Emily DeRycke, (641) 236-4905

ISSUE DATE: May 13, 2025
