Re: Rescission of Land Application permit 00-SDP-09-15 for Danisco USA.

Dear Mr. Wierema:

This correspondence shall serve as official notice of voluntary rescission of Danisco USA permit 00-SDP-09-15. This recession is in response to the request made by Michael Klema and Joseph Dixon on May 12, 2025.

Per this request and effective immediately, the Iowa Department of Natural Resources (DNR) will remove the above referenced permit from our list of active projects and will close the project file. Therefore, no further action is necessary and all other activities associated with the Land Application permits are no longer required.

Rescission of the Land Application permit in no way relieves Danisco USA of the responsibility of complying with other DNR permitting requirements and all other local, state and federal statutes or rules that are applicable to activities conducted at or by this facility. If in the future Danisco USA decides to resume land application activities a completed land application permit application with supporting documentation will need to be submitted to the DNR.

Thank you for your efforts to comply with Iowa's environmental requirements. Please feel free to contact me if you have any questions. I can be reached at 515-721-7979 or Theresa.Stiner@dnr.iowa.gov.

Sincerely,

Theresa Stiner
