COMPOST FACILITY OPERATION INFORMATION. In this section provide information as to how the composting facility operates.
What method/s of composting is employed at the facility  Turned piles/windrows
Has the facility operator taken and passed an approved composting course?  ✓ Yes, has taken and passed a composting operator training course  □ No, has <b>not</b> taken a composting operator training course
PERMITTED COMPOSTING FACILITIES ONLY. Each composting facility is required by IAC Chapter 105.9(4) to test its compost to make sure that the concentrations of all metals and fecal coliform or Salmonella sp. do not exceed regulated levels. Please attach a copy of the test results to this form, making sure that the applicable units (reference 105) are clearly recorded. All composting facilities are required to take biweekly temperature readings of compost piles, and weekly readings of moisture levels. Facilities are not required to report these readings on this annual form, but should keep this information on file to be referenced if necessary.
How often is the finished compost product analyzed?  Never Monthly Twice a year Other (please describe)
CERTIFICATION  I certify under penalty of law that I am the owner, operator, or authorized representative of the owner or operator and that I have examined and am familiar with the information reported above, and that I believe the information is true,  accurate and complete.
