Chad -

Crawford Quarry was not awarded the new contract for the Cedar Rapids Water Department (CRWD) Centrifuge lime sludge.

However, we continued to receive Centrifuge lime deliveries on and ending July 21, 2025. I'm aware that the new contractor is hauling this material in a semitrailer box heading north of Cedar Rapids. I'm also aware that the CRWD kept their transport truck for emergencies.

Crawford Quarry hopes to renew this Centrifuge contract in the future so we would like to keep this Centrifuge lime sludge in our BUD as an approved By-Product. If fact, we will begin receiving East Well Field Lime Sludge soon.

Both by-products are identified and authorized for our BUD in the DNR letter dated July 3, 2019.

Please contact me if you have and questions or concerns.

Thank you

Bill Robinson

Crawford Quarry
