**RE: Notice of Expiration  
Iowa City Compost Facility  
52-COM-02-22P COM**

Dear Jen Jordan,

The composting facility permit for the facility referenced above expires on 1/9/2026. We request that you submit an application for renewal at least 90 days before the expiration date of the existing permit. Therefore, a completed application for a timely renewal is due by 10/11/2025.

Please review your facility's current permit and planning documents (e.g. design, operations, financial assurance, emergency response, closure). If these documents remain current and require no revision, please indicate the Doc ID number of the current document, and complete Sections 1, 2, 3A, 3E, 3G if applicable, and 4 of the enclosed permit application form. The permit will then be renewed for an additional three-year permit cycle. All previous applications can be found in our Electronic Document Database at <https://programs.iowadnr.gov/solidwaste/reports/DocumentDNA>.

If updates are needed to account for changes in facility operations, Section 3 of the permit application form identifies those renewal documents that must be submitted. If an application is found by the Department to be incomplete, it may be denied and returned to the applicant. Attached is Department Form 50H to be filled out and filed with the supporting documentation.

**Field Office Inspection**

The Department's field office may conduct an inspection of the composting facility following

receipt of the application for renewal. Any needed corrective measures identified during the inspection must be completed prior to renewal of the permit.

If you have questions or need additional information, please contact Theresa Stiner at 515/721-7979 or [Theresa.Stiner@dnr.iowa.gov](mailto:Theresa.Stiner@dnr.iowa.gov).

Sincerely,

Becky Jolly  
Land Quality Bureau
