Shawn -

The DNR has issued a Notice of Expiration (NOE) for the second phase of the beneficial fill activities at Leon Ewart's property. Ryan S. from DNR Field Office #6 will be visiting in the coming days to document that both fill locations have been closed in accordance with the executed beneficial use determinations (BUDs).

Please note that Special Condition 11(e) of both BUDs, as quoted below, has not yet been met:

"A notation shall be filed with the county recorder showing in perpetuity, for the purposes of title abstract, the existence of a beneficial fill project consisting of the above-referenced by-product(s). The End-User shall submit a copy of the executed notation to the DNR within ninety (90) days of completion of beneficial fill activities."

Please work with Mr. Ewart to ensure this BUD requirement is timely completed. Thanks
