**RE: TEMPORARY EMERGENCY SOLID WASTE TRANSFER STATION
JACKSON COUNTY TRANSFER STATION
IDNR PERMIT NO. 49-SDP-03-92P XFR
HLW PN 6040-23A.200**

Dear Mr. Stobbe:

With this letter, the Waste Authority of Jackson County is requesting approval to allow a Temporary Emergency Solid Waste Transfer Station to operate in accordance with IAC 567-106.3(11).

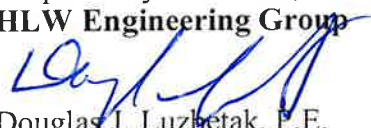

The Jackson County Transfer Station was destroyed by a fire on April 28, 2025 and is currently being rebuilt. The Authority would like approval in the form of an SDP Permit Amendment to operate a temporary transfer station until the repairs to the primary transfer station building are complete. The proposed temporary transfer station building is located on the property covered by the SDP Permit.

Waste will only be accepted from individuals and small businesses in the planning area, commercial solid waste collection vehicles will not be accepted. The waste will be dumped in the recyclable storage building at the location shown on the attached figure. This building has a concrete floor (with no floor drains) and a loading dock. The waste will be loaded into a covered tipper trailer for hauling to the landfill.

The site access will be the same as utilized for the main transfer station. The electrical supply to the scale was also damaged in the fire, so waste volumes from customers will be estimated for billing purposes. The waste will be weighed at the receiving landfill.

The Authority is also considering accepting recyclables from individuals and small businesses. If the recyclables will be stored outside, applicable stormwater regulations will be followed.

Thank you for your consideration of this request. Please let me know if you have any questions.

Respectfully submitted,
HLW Engineering Group

Douglas J. Luzbetak, P.E.
Project Manager
