Good morning Mike,

By virtue of this email, the Rural Iowa Waste Management Association is requesting that the permit for the Rural Iowa SLF, IDNR Permit No. 42-SDP-01-72P be amended to allow the stockpiling of wood chips on site. The wood chips will be stockpiled east of Trench 3 and south of the existing soil stockpile within a future waste boundary. Staff will utilize the wood chips for various uses around the facility.

Thank you for your consideration of this request,

Doug
