If approved, we plan on removing all old structure and preparing site for Spring construction. We are working with engineering and county zoning on plans. Depending on contractor proposed scheduling for install and weather during spring conditions. We have hopes that the site will be usable late summer, early fall. And we would need to use this facility Moving forward , approximately twenty four months until our more sophisticated and much larger facility is completed.

Good Morning,

From your description it sounds like it should be fine. Could you send me an aerial photo with the temporary site indicated and a rough idea of how long you will use the temporary site? Once I receive those I will amend your permit.

Good Morning,

We are needing a response as soon as possible. We are currently working with our contractors and engineers to begin this plan, but we require clarification before we can move forward.

Please provide the some sort of guidance at your earliest convenience so we can proceed without delay.

Thank you,
Courtney Herrold
