Good morning. The Iowa DNR has reviewed the construction documents for the above-referenced project and have no comments. Please consider this email as formal approval of the closure construction. A revised permit will be issued in the future that incorporates this approval.

Thanks,
Brian

Brian,

Please see the attached link below for the completed quality assurance documentation for the construction of the Capping Cell 9 project at the Walter Scott, Jr. Energy Center, Coal Combustion Residual Monofill in Council Bluffs, Iowa. A full compiled copy of the CQA report is saved in the folder link below. Please confirm that you're able to access the files. If you have any questions, please feel free to contact me.
