Please put this on the database for Wellman Dynamics. 88-SDP-04-86.

Thanks!

Good morning Brad,

Please see attached annual landfill inspections and certification for the WDC landfill. We believe the landfill cover has been established and maintained appropriately in 2025 and would like to request a reduction in inspection requirements per Special Provision 3 in the Closure Permit, below.

We would like to request an inspection frequency decrease to quarterly for 2026 as we continue to monitor and maintain the landfill cover.

*3. This site shall be inspected monthly for the first year, or more frequently depending on weather conditions. The frequency of routine inspections may be decreased, but no less frequent than annually, if the permit holder provides justification that monthly inspections are no longer necessary to ensure proper maintenance of the site.*

WDC plans to submit its Annual Water Quality Report by January 31, 2026, in accordance with past requirements and submissions.

WDC plans to submit its updated Financial Assurance Report Form by April 1, 2026, in accordance with the Closure Permit and past submissions.

Please let us know if you have any questions or require anything additional or have any other items that are needed now or expected in 2026.

Thank you,

**Bob Roach, P.E. | Senior Project Engineer**
