

Appliance Demanufacturing Zoning Verification Form

To Whom It May Concern:

I am in the process of applying for an appliance Demanufacturing permit through the Iowa Department of Natural Resources. Department permit requirements include conformation from the zoning department that my facility meets zoning requirements for appliance Demanufacturing and verification that the property is located above the 100 year flood plain.

Iowa Code Chapter 118 states that all appliances must be demanufactured before being recycled or disposed of. Appliance demanufacturing consists of ensuring proper removal and disposal of electrical components containing PCB's, refrigerant, and mercury switches.

My appliance Demanufacturing facility is located at:

Name AC Salvage

Street Address 613 210th ST

City Ogden IA

Zip Code 50212

I request that you please fill out the information below and return to:

Iowa Department of Natural Resources
Land Quality Bureau
Attn Sue Johnson
6200 Park Ave Ste 200
Des Moines IA 50321
Fax: 515-725-8201

Zoning Department

I have reviewed zoning requirements for the property listed above and (check all that apply):

- ☒ I verify that the property is located above the 100 year flood plain and is properly zoned for appliance demanufacturing.
- ☐ The property is not zoned correctly and is located in the 100 year flood zone. Please see comments below.
- ☐ The property is not zoned for appliance Demanufacturing activity, please see comments below.

Comments: *we do not do flood plain determinations, our county engineer works with DNR for them. Also, property is zoned correctly but does require a conditional Use permit from the Zoning Board of Adjustment and a salvage license from the Board of Supervisors*

Zoning Official Signature

Matthew Schmitt
