2025 Leachate Report
Neal South Energy Center Coal Combustion Residue Monofill
Salix, Iowa
Permit No. 97-SDP-13-98

Dear Mr. Rath:

On behalf of MidAmerican Energy Company (MidAmerican), GHD Services Inc. (GHD) prepared this Leachate Report to document leachate management activities for the Neal South Energy Center Coal Combustion Residue (CCR) Monofill (Neal South Monofill).

During calendar year 2025, no leachate was recovered from the Neal South Monofill; leachate levels were monitored by MidAmerican personnel on a quarterly basis during 2025, but no recoverable leachate was observed. No leachate samples were collected at Neal South during 2025. If leachate is recovered in the future, MidAmerican intends to transport the leachate to the Leachate Pond at the Neal North Energy Center.

Should you have any questions or require additional information regarding the above, please do not hesitate to contact Josh Love of MidAmerican at +1 712 277-6367 or Michael Alowitz of GHD at the below contact information.
