Terry -

Thanks for the submission. Please note that your annual CRT report submission is missing some information. Each of the four subrules below must be addressed within the annual report. To determine compliance with Federal speculative accumulation regulations, you must also track and report the answers to subrules 112.11(1) and 112.11(2).

567—122.11(455D) Reporting requirements. CRT collection facilities and CRT recycling facilities shall report the following information on Form 542-8131, provided by the department, to the department by February 1 of each year for the previous calendar year.

122.11(1) The amount, either by weight or volume, of discarded CRTs and processed CRT glass on site on January 1.

122.11(2) The amount, either by weight or by volume, of discarded CRTs and CRT glass recycled or transferred for recycling during the calendar year.

122.11(3) The amount, either by weight or by volume, of discarded CRTs and processed CRT glass on site on December 31.

122.11(4) Indication of whether the CRTs received over the past year were generated by households, businesses, or both households and businesses.

122.8(1) Discarded CRTs and processed CRT glass shall not be speculatively accumulated pursuant to 40 CFR 261.1(c)(8).

Please update your annual report accordingly. Thanks
