Mr. Berray -

The DNR is currently reconciling tracking sheets used by the prior program administrator, Sue Johnson, for this CRT Collection registration program. Based on our discussion, the DNR understands that Behr Iron and Metal does not accept CRTs for recycling.

I apologize for any confusion. Registration #17-CRT-07-22 will be removed from the list of active CRT Collection registrants, and no further action is required on your part.

Best regards,

Good morning Chad,

My name is Chris Berray and I am the Environmental manager over the Mason City facility. I received this letter from my facility manager last week and I wanted to follow up with you regarding this as I believe there may be a misunderstanding with this registration and associated report. We do not purchase CRTs as we would recommend our customers go to an electronic scrap consumer. I've spoken with our previous environmental manager over this facility and he didn't recognize this registration either. If you could please give me a call (262-327-1280) at your convenience so we can discuss it would be greatly appreciated.

Cheers,

Chris Berray - Regional Environmental Manager
