Brian –

SCS is requesting an extension to the submittal date for the Final Cover Repair Plan, requested by April 17, 2026, in correspondence dated March 6, 2026 (Doc #116350) for the Anderson Excavating C&D Landfill, Permit No. 78-SDP-04-89. Further time is needed to complete the design and determine whether amending soils or a geosynthetic layer is necessary to achieve the required permeability, which may necessitate a slope stability analysis. As such, we request that the submittal date be extended to June 15, 2026.

Thanks,

Sean A. Marczewski
