Re: Permit Amendment Request – Open Burning  
Landfill of North Iowa  
Permit No. 17-SDP-01-75P

Dear Alexis Slade:

On behalf of Landfill of North Iowa (LNI), Foth Infrastructure & Environment, LLC (Foth) requests Iowa Department of Natural Resources (IDNR) review and approval to amend Permit No. 17-SDP-01-75P to allow open burning of wood debris that is too large for on-site grinding. Figure 1 in Attachment 1 depicts the proposed designated area for open burning. This area is located outside the current and future planned permitted cell boundaries, and greater than ¼ mile from any inhabited building.

Upon IDNR approval, LNI intends to relocate an existing brush pile containing stumps, root balls, and tree debris received from a 2025 storm event in Ventura to the designated area for open burning. Consideration will be given to wind speed and direction, and will not be conducted during local or state burn bans. In addition, the area will be supervised until the fire is extinguished.

Thank you for your attention to this matter. Should you have any questions or need further information, please contact us at the numbers listed below.

Sincerely,

Foth Infrastructure & Environment, LLC
