**FACILITY NO.** 85-SDP-16-04P-PCS (E-Farm Project # 31177)

### OBSERVATIONS:

On 6-09-05, I stopped at the E-Farms site located south of Tiffin, on the east side of Ireland Ave. NW.

I observed the area where the Petroleum Contaminated Soils (PCS), had been dumped for future spreading, per the permit issued to E-Farms by IDNR.

It appeared to me the soil has not been spread as required and has only reduced in size due to the volume of recent rains.

I will send an e-mail correspondence to Dan Keltner, E-Farms representative, stating the soil must be spread at the maximum 4" depth, by June 17, 2005.
