Good afternoon Alexis,

This email is to notify you that the seasonal leachate pumping system described in the June 5, 2026 letter from HLW (Doc #117292) and approved by IDNR on June 17, 2026 has been installed and commenced operation today.

Quantities of leachate removed by the system and hauled to the leachate storage lagoon will be documented in the 2026 Annual Water Quality Report.

Please let me know if you have any questions,

Doug

Alexis,

Attached is a letter requesting permission to install a seasonal leachate pumping system to control a persistent leachate seepage area at the Cass County SLF, IDNR Permit #15-SDP-01-75C.

Please let me know if you have any questions.

Doug
