Shannon, Bill, Malia, Becky, and Mel,

Thank you for the email and attached Notice of Violation. This message confirms Liberty Tire Recycling's receipt of the correspondence regarding the September 16, 2026 site visit and observations documented in the attached document.

We appreciate the Iowa DNR's acknowledgment that the pre-processed tire piles were found to be in compliance during the inspection.

Liberty Tire takes the observations and corrective actions outlined in the letter seriously. We have already addressed the off-site tire material identified during the inspection and are actively working on the remaining items, including reducing the size of the processed tire pile, restoring and securing the southern containment barriers, reinforcing housekeeping practices, and ensuring stormwater management equipment is operating as intended.

Our team is committed to achieving substantial compliance as quickly as possible and maintaining open communication throughout the process. We appreciate the professional manner in which the inspection findings and expectations were communicated and look forward to continuing to work collaboratively with the Department.

Please let us know if there is any additional information you would like us to provide as we complete the corrective actions.

Respectfully,

Ted Daley
General Manager
