Good morning Khalid,

We submitted a draft Environmental Covenant for the 1945 SLF at the Newton SLF to IDNR for review/comment on August 19, 2026.

As IDNR has allowed at other sites seeking an EC, since the EC review process has begun, we are not planning to conduct the annual sampling of the monitoring points associated with the 1945 SLF required by Special Provision X.4.b this fall. A list of the monitoring points associated with the 1945 SLF is included in the referenced Special Provision.

Please let me know if you have any questions,

Doug
