Subject: Permit Amendment Request
Montgomery County Transfer Station
Permit No. 69-SDP-05-07P-XFR

Dear Chad:

A General Provision of the operating permit for the Montgomery County Transfer Station, most recently renewed on June 12, 2026 (Doc #117139), requires a site inspection and report to be completed annually by an Iowa-licensed professional engineer in accordance with 567 Iowa Administrative Code (IAC) 106.14(2).

The IAC was revised, effective September 23, 2026, which removed the requirement for the annual inspection and report for the transfer station. However, as the permit still contains the inspection requirement, a report is still required in 2026.

The last annual inspection report was submitted on December 20, 2025 (Doc #115272).

Due to the change to the IAC, it is requested that the permit be amended by removing the General Provision requiring the inspection and report.

If you have any questions regarding this request, please contact us at the numbers below. Thank you.

Sincerely,

A handwritten signature in blue ink that reads "Sean Marczewski".
