RE: Mid Iowa Plaza LLC
Administrative Consent Order (ACO) No. 2012-SW-18
77-SDP-59-06

Dear Mr. Skinner:

As you are aware, Section V of Administrative Consent Order #2012-SW-18 with the Department of Natural Resources (DNR) requires the collection of groundwater and surface water samples at the Mid Iowa Plaza site located at 6003 NE 72nd Street in Bondurant, and the submittal of annual water monitoring and engineering inspection reports. DNR extended the monitoring period through 2020 in our August 25, 2016 letter. DNR has not received the 2019 reports, which were required to be submitted by December 31, 2019.

The most recent sampling results from the site continued to show elevated groundwater contamination originating from the wastes buried on the property. In the DNR's July 8, 2019 letter, we reiterated that the observed groundwater contamination had not stabilized and annual monitoring remained necessary in accordance with article V.6 of the above consent order.

By August 10, 2020, you are required to submit the 2019 sampling event results and confirm 2020 sampling plans. Failure to confirm compliance with the order will result in further enforcement of the order by the DNR, including, but not limited to, extension of the sampling period.

If you have any questions regarding this letter, please contact me at (515) 725-8345 or by email @mick.leat@dnr.iowa.gov.

Sincerely,

Michael B. "Mick" Leat
