

**"HOW TO FILE A COMPLETE NOTICE OF INTENT"**

For  
NPDES General Permit No.1  
for "Storm Water Discharge Associated With Industrial  
Activity"  
or  
NPDES General Permit No.2  
for "Storm Water Discharge Associated with Industrial  
Activity for Construction Activities"  
or  
NPDES General Permit No.3  
for "Storm Water Discharge Associated with Industrial  
Activity for Asphalt Plants, Concrete Batch Plants, Rock  
Crushing Plants and Construction Sand and Gravel  
Facilities"

In accordance with the Clean Water Act, all industrial facilities that discharge storm water meeting the definition of storm water associated with industrial activity must apply for coverage under a National Pollutant Discharge Elimination System (NPDES) permit.

These instructions are provided to assist activities that need to notify the Iowa Department of Natural Resources (DNR) of their storm water discharge to be covered under Iowa's NPDES General Permit No. 1, General Permit No. 2 or General Permit No. 3.

The instructions are the same for all general permits. When a discharger provides a complete Notice of Intent to the DNR, its storm water discharges will be subject to the terms and conditions of the appropriate general permit unless notified by the DNR.

A pollution prevention plan is required for all storm water permits. The plan must be completed before submittal of the Notice of Intent. The plan should be kept on-site at the facility or construction site that generates the storm water discharge. Do not send the pollution prevention plan with the Notice of Intent.

**To file a complete Notice of Intent you must provide the following items:**

1. The completed Form 542-1415 entitled "Notice of Intent for NPDES Coverage Under General Permit",
2. Proof of Public notification from the newspaper in the area with the highest circulation and,
3. Permit fee.

Each of these items is discussed in detail below and on the back side of this page.

Mail the completed application form 542-1415 with the proof of public notice and permit fee to the following address. **DO NOT** send the Pollution Prevention Plan with your Notice of Intent. **DO NOT** send the application form,

fee payment or proof of public notice separately. Send them all together.

**Storm Water Coordinator**  
**Department of Natural Resources**  
**502 E 9th St**  
**Des Moines, Iowa 50319-0034**

**1. Proof of Public Notification**

Iowa law requires dischargers to make public notice for seeking coverage under a general permit. The public notice must be published at least one day at your own expense in the newspaper with the largest circulation in the area where the discharge is located.

The wording to use in the public notice is specified as a rule of the DNR and is included as a separate page for your convenience. This wording contains the minimum information that must be provided in the public notice. You must complete the blank portions with the specified information. You may add more information to the notice if you wish.

To determine which newspaper has the largest circulation, ask your local newspaper or call the Iowa Newspaper Association (INA) at (515) 244-2145 or <https://inaneews.com/>.

When your Notice of Intent is sent to the DNR, you **MUST** enclose a clipping of the public notice with the name of the newspaper and date published, or an affidavit from the newspaper with the clippings attached to demonstrate your public notification requirement. If the proof of public notice is not included with your application, the storm water permit authorization will **NOT** be issued.

**2. Form 542-1415**

In filling out the form, type or print legibly and complete both sides of the form.

*Permit Information and Fee Options*

Give permit information on the general permit for which you are applying and select a fee option.

*Facility or Project Information*

Enter the official or legal name of the facility or site. Enter the complete street address. If no street address exists, provide a geographic description (e.g., Intersection of 5<sup>th</sup> Street and 2<sup>nd</sup> Avenue or, at a minimum, the name of the street or road nearest the site), city, county, state and zip code. Do not use a PO Box number. This is the address of the facility or construction site not the address of the owner or contact.

For General Permits No. 1 and No. 3, provide a four-digit SIC code that best represents the principal products or activities provided by the facility.

*Contact Information*

Provide the legal name of a contact person, firm, public organization or any other entity that owns or operates the facility or site. The name of the operator or contact may or may not be the same as the name of the facility. The operator is the legal entity that controls the facility's operation. Provide a mailing address (PO Box numbers may be used). Include the city, state, zip code and telephone number for a contact person. All correspondence relating to the storm water permit, including the storm water permit authorization, will be sent to this address.

*Facility Location or Location of Construction Site*

Give the location by ¼ section (e.g., NW), section number, township number (e.g., T78N) and range number (e.g., R4W). The location information can be obtained from United States Geological Survey topographic maps, by calling 1-(888) ASK-USGS.

*Owner Information*

Enter the name, mailing address and telephone number of the owner of the facility.

*Outfall Information*

Provide an estimated start date the discharge did or is to commence, the name(s) of the receiving water(s), and check compliance conditions. All applicable compliance conditions listed must be met for the Notice of Intent to be considered complete.

The discharge start date is the date storm water discharge from industrial activity or construction activity (from a construction site that disturbs one acre or more or is part of a larger common plan of development that disturbs one acre or more) began or will begin to leave the property. If the discharge start date is before 10/1/92, the correct date to place in the blank is 10/1/92. This is the date the State of Iowa implemented the storm water permit requirements.

If an industrial facility was not initially required to obtain a storm water permit but changed operations so that later a storm water permit was or will be required, the discharge start date is the date that the change was made that necessitated the need for a storm water permit.

Provide the name(s) of the receiving water(s) to the first uniquely named river. Explain to where the storm water runoff will drain (e.g., unnamed waterway to road ditch to unnamed tributary to Mud Creek to Skunk River).

*Compliance conditions*

Check the compliance conditions that apply. A pollution prevention plan is required for all storm water permits. For General Permit No. 3 (if no soil disturbing activities will take place) and General Permit No. 1, the question regarding state or local sediment and erosion control plans

does not apply. If you check no to any of the applicable compliance conditions, your application will not be approved.

*General Permits No.2 and No 3*

For construction sites that need a storm water discharge permit, in addition to the information required above, include a brief description of the project, estimated timetable for major activities and an estimate of the number of acres of the site on which soil will be disturbed.

For General Permit No. 3, identify if the facility is a portable plant.

*Certification*

The completed form must be signed by a qualified official. A qualified official is any of the following: owner, principal executive officer of at least the level of vice-president, general partner, general contractor (for construction sites), principal executive officer or ranking elected official (for publicly owned facilities).

**The Notice of Intent will be returned and no permit issued if information on the form is incomplete.**

**3. Fees**

There is a permit fee for each general permit. The fee schedule is the same for General Permit No. 1, No. 2 and No. 3.

The applicant has the option of paying an annual permit fee or a multi-year permit fee.

|                   |       |
|-------------------|-------|
| Annual permit fee | \$175 |
| 3-year permit fee | \$350 |
| 4-year permit fee | \$525 |
| 5-year permit fee | \$700 |

**IMPORTANT - The storm water permit authorization will not be issued unless the proof of public notice and permit fee accompany the completed Notice of Intent.**

**If you need assistance contact the DNR at (515) 725-8417.**

IOWA DEPARTMENT OF NATURAL RESOURCES  
 ENVIRONMENTAL SERVICES DIVISION  
NOTICE OF INTENT FOR NPDES COVERAGE UNDER GENERAL PERMIT

**CASHIER'S USE ONLY**

Instructions - To complete the public notice, fill in the blanks with the required information or select the appropriate response and send to the newspaper.

The public notice must be published at least one day at your own expense.

PUBLIC NOTICE OF STORM WATER DISCHARGE

Lake Panorama Rural Improvement Zone plans to submit a Notice of Intent to the  
*(applicant name)*

Iowa Department of Natural Resources to be covered under the NPDES General Permit

- General Permit No. 1 - Storm Water Discharge Associated with Industrial Activity
- General Permit No. 2 - Storm Water Discharge Associated with Industrial Activity for Construction Activities
- General Permit No. 3 - Storm Water Discharge Associated With Industrial Activity From Asphalt Plants, Concrete Batch Plants, Rock Crushing Plants, And Construction Sand And Gravel Facilities

The storm water discharge will be from *(description of industrial activity):*

Maintenance and grading activities along the shoreline of Burchfield Cove to allow for construction access and shoreline armoring.

located in SE, 13, T80N, 31W, GUTHRIE COUNTY  
*(¼ section, section, township, range, county)*

Storm water will be discharged from 1 point source(s) and will be discharged to  
*(number)*

the following streams: Lake Panorama  
*(stream name(s))*

Comments may be submitted to the Storm Water Discharge Coordinator, Iowa Department of Natural Resources, Environmental Services Division, 502 E 9<sup>th</sup> St, Des Moines IA 50319-0034. The public may review the Notice of Intent from 8:00am to 4:30pm, Monday through Friday, at the above address after it has been received by the department.
