Status: Active

Grant Amount: \$799.00

Date: 06/30/2025

County: Floyd

General Observations and Discussion

The Burling House Facility is home to 12 residents and was initially established as a charitable donation by parents of one of the original residents, who has since passed away. The late resident's brothers continue to support the facility, including some remodeling and landscaping work to keep the facility modern and usable for current residents. The refrigerator purchased with this particular grant is for food items used daily for dining and meal prep, which residents assist with.
