

RECYCLING MATTERS

(# 1)

Slide	Narrative
1 Title	"Recycling Matters!"
2 Buy Recycled display	A sample of the Buy Recycled display used for programs. This is the display at the Ellsworth Community College Career Day.
3 Girl doing crafts	The Excel Alternative High School did a variety of arts and craft projects using recyclables.
4 Students in yard	Here is a group of summer program students setting up a Mini Golf course after hearing about recycling.
5 Students making balls	Everyone in the After School programs made their own Balloon Balls for a Mini Golf game.
6 Students sewing	It is fun for students to make hats and/or mittens from Polartex. This allows them to experience an item that is made from a recycled material.
7. Finished hats	Here are examples of the different hats and the smiles they bring to everyone.
8. Holding a plastic item	It is good to have a sample of items to pass around for students to touch and relate to for recycling.
9. Student by bin	A fun way to let students practice recycling—make up game cards with a variety of items on them. Hand them out and work together sorting the garbage from the recyclables. Also, talk about what could replace those items going into the garbage.
10. Open House	The public was really interested in looking at the items with the Buy Recycled display, at the grant Open House.
11. Woman & Polartex	There was an opportunity to sew the Polartex at the Open House for the grant.
12. Earth Day table	The Earth Day 2001 display at the mall was on Energy Matters.

- | | |
|-----------------------|--|
| 13. Recycling display | Part of the Earth Day display showed the energy saved from recycling. |
| 14. Lamp and table | This part to the display showed Buy Recycled and Energy saving items. |
| 15. Store visit | It was interesting going around to stores who sell rechargeable batteries and those to be recycled. Here the new brochures and posters were being distributed. |
| 16. Recycling Lady | Alice, the Recycling Lady was good to dress up and help share the recycling message. This was a program doing projects for the Turnoff TV program. |
| 17. Mini golf | The America Reads and Turnoff TV programs put together a Mini Golf course for the Community Fair, from recyclables. |
| 18. Golf hole | A sample of what can be created from paper items, for a golf hole. |
| 19. Golfer | The children visiting the mall had a great time play the creative holes of golf from recyclables. |
| 20. End | SWAP Grant for Hardin and Marshall Counties |
