SUBJECT: Analytical results from underground storage tank permanent closure  
Boone National Guard, 700 Corporal Roger Snedden Dr., Boone  
Registration No. 198605891

Dear Mr. Madsen:

This department has received the soil and groundwater analytical results pursuant to the permanent closure of three (two 10000 and one 4000 gallon) underground storage tanks containing petroleum products located as referenced above.

Based upon the report, dated August 10, 2015, no further action is required at this time. We will now update our files to indicate the three underground tanks damaged during the flooding are removed from this location.

Contact me if you have a question regarding this matter.

Sincerely,

A handwritten signature in black ink, appearing to read "Tom Collins", written over a horizontal line.
