Dear Mr. Varley:

The Iowa Department of Natural Resources (Department) records show that the biennial compliance inspections for the above referenced facilities were due 02/01/2020. You are currently **out of compliance** with the IAC 567 Chapter 135.

Pursuant IAC 567-135.20 The owner or operator must have the UST system inspected and an inspection report submitted to the department by a UST compliance inspector certified by the department under 567—Chapter 134. UST compliance inspections must be completed with 24 months of the prior compliance inspection. **The inspections are more than 6 months overdue.** The last compliance inspection was completed on 02/01/2018.

You were notified on 7/10/2020 via email to schedule the compliance inspections by July 15th, 2020 and provide the department with the date of the inspections.

As of today, the inspection has not be completed or submitted to the Department. An Iowa licensed compliance inspector needs to be contacted to complete the compliance inspection. **The compliance inspection must be completed and submitted by July 31, 2020.** Please have the licensed inspector contact the department with your scheduled inspection date.

Failure to complete and submit the compliance inspection by July 31, 2020 will result in the sites being placed on a delivery prohibition status. In this event, red-tags will be affixed to the USTs and fuel deliveries will be halted until the delivery prohibition is rescinded and red-tags are properly removed.

Please contact me at 515-725-8364 or cara.ingle@dnr.iowa.gov if you have any questions.
