RE: NPDES Final Permit #9700102

Dear Mr. Arnold:

Enclosed is the final National Pollutant Discharge Elimination System (NPDES) permit that authorizes the wastewater discharge from MidAmerican Energy - Neal North Energy Center. This final permit is the same as the draft permit emailed on January 25, 2024.

The issuance date of this permit is April 1, 2024; please become familiar with all limits and requirements in the enclosed final permit. The facility will be required to use new discharge monitoring report (DMR) forms once the final permit is issued. Electronic DMR forms are available from your regional Field Office. Please contact Tom Roos at 712-262-4177 (Field Office 3) or tom.roos@dnr.iowa.gov for more information.

Please contact me at 515-217-0873 or Melinda.McCoy@dnr.iowa.gov if you have any questions.

Sincerely,
